

Index for Workbook 24

Dirac delta function _____	30	Magnitude spectrum _____	13
Dirichlet conditions _____	29, 34	Parseval's theorem _____	28, 37
Duality property _____	22	Phase specturm _____	13
Energy _____	28	Polar form _____	12
Energy density _____	28	Rectangular pulse _____	8
Exponential function - 2-sided _____	10	Shift properties _____	16
Fourier transform - definition _____	4	Signum function _____	34-37
Frequency differentiation property _____	22	Step function _____	6
Frequency domain _____	4	Time differentiation property _____	22
Frequency shift property _____	16	Time domain _____	4
Heaviside step function _____	6	Time shift property _____	16
Inverse Fourier transform _____	4, 18-22	Unit impulse function _____	30, 32
Impulse function _____	30	Unit step function _____	6, 34
Laplace transform _____	29	EXERCISES	
Linearity properties _____	15	13, 25, 37
