

# Index for Workbook 25

Auxiliary equation _____	4	ODE - first order _____	3
Boundary conditions _____	8, 13, 15	- second order _____	4, 6
Diffusion equation - see Heat conduction equation		Partial derivatives _____	6
Dirichlet conditions _____	17	Poisson's equation _____	18
Fourier series _____	35, 42	Schrödinger's equation _____	18
Heat conduction _____	32	Separation of variables _____	19-34
Heat conduction equation _____	8, 14, 23, 26	Simple harmonic motion _____	6
Helmholtz's equation _____	18	Submarine equation _____	16
High frequency line equation _____	16	Telegraph equation _____	16
Initial conditions _____	3, 8, 12, 15	Transmission line equation _____	16
Insulation conditions _____	15	Transverse vibrations equation _____	18
Laplace's equation _____	7, 17, 25, 36	Wave equation _____	8, 12, 24, 28
Neumann boundary conditions _____	17	ENGINEERING EXAMPLES	
		1 Heat conduction through a furnace wall _____	32
