

Index for Workbook 26

Aerofoil _____	14, 19	Inversion _____	16
Analytic function _____	7	Isolated singularity _____	53
Annulus of convergence _____	51	Joukowski transformation _____	19
Bilinear transformation _____	17	Laplace's equation _____	11
Branches of a function _____	27	Laurent series _____	51-53
Branch point _____	54	Laurent's theorem _____	52
Cauchy's integral formula _____	46	Limit of complex function _____	3
Cauchy-Riemann equations _____	9, 22	Lines of force _____	14
Cauchy's theorem _____	40	Logarithmic function _____	27
Complex function		Neighbourhood _____	53
- continuous _____	5	Poles _____	54
- definition _____	3	Principal part of Laurent series _____	53
- differentiable _____	6	Principal value _____	27
Complex integration _____	29-58	Residue _____	55-57
Complex potential _____	14	Residue theorem _____	55-56
Conformal mapping _____	13, 16	Simple pole _____	54
Conjugate harmonic function _____	11	Simply-connected region _____	40, 42
Contour integration _____	29-58	Singularity _____	53
Equipotential curves _____	14	Streamlines _____	14
Essential singularity _____	54	Transformation	
Exponential function _____	22	- bilinear _____	17
Fluid flow _____	36-37	- Joukowski _____	19
Function - analytic _____	7	Trigonometric functions _____	24
- as mapping _____	14	Two-dimensional fluid flow _____	36-37
- branches _____	27	EXERCISES	
- complex _____	3	6, 12, 20, 28, 37, 45, 49, 54, 57	
- continuous _____	5	ENGINEERING EXAMPLES	
- differentiable _____	6	1 Two-dimensional fluid flow _____	36
- harmonic _____	10		
- hyperbolic functions _____	25		
- limit _____	3		
- standard _____	25-28		
Integral along a path _____	30-35
