

# Index for Workbook 36

|                                  |          |                             |        |
|----------------------------------|----------|-----------------------------|--------|
| Bar chart _____                  | 7        | Mean _____                  | 15     |
| Box-and-whisker diagram _____    | 36       | Mean deviation _____        | 17     |
| Categorical data _____           | 7        | Median _____                | 12, 29 |
| Class interval _____             | 4        | Mid-interval value _____    | 15     |
| Continuous data _____            | 7        | Mid-spread _____            | 29     |
| Cumulative frequency curve _____ | 13       | MIV _____                   | 15     |
| Data _____                       | 7        | Ogive _____                 | 13     |
| - analysis _____                 | 26-45    | Outliers _____              | 26-40  |
| - categorical _____              | 7        | Pie chart _____             | 9      |
| - continuous _____               | 7        | Quartiles - lower _____     | 12     |
| - discrete _____                 | 7        | - upper _____               | 12     |
| - representation _____           | 2-25, 42 | Range _____                 | 17     |
| Discrete data _____              | 7        | Rank order _____            | 28     |
| EDA _____                        | 26-45    | Resistant statistics _____  | 27-28  |
| Exploratory data analysis _____  | 26-45    | Skewness _____              | 35-36  |
| Frequency polygon _____          | 5        | Spread _____                | 16, 29 |
| Frequency table _____            | 3        | Standard deviation _____    | 17, 19 |
| High-spread _____                | 29       | Stem-and-leaf diagram _____ | 28, 31 |
| Hinges _____                     | 29       | Variance _____              | 19     |
| Histogram _____                  | 5        | Variance estimation _____   | 19     |
| Inter-quartile range _____       | 17       | EXERCISES                   |        |
| Location _____                   | 14       | 23, 43                      |        |
| Low-spread _____                 | 29       |                             |        |
