

Index for Workbook 44

Additive model	24	Latin squares	47
Alloy spacers	4, 16	Mixed effects model	25
Aluminium alloy tensile strength	45	Paint weathering	29
ANOVA - 1 way	3-14	Partitioning variation	26
- 2 way	15-39	Plastic tube tensile strength	47
ANOVA tables	7-8, 19-20, 27-28	Random effects model	25
Assembly machines	33	Randomised block	41
Bias	42	Roadholding of car	31
Block design	41	Steel alloy corrosion	21
Catalysts	49	Tables	57
Chemical process	49	Tensile strength	45, 47
Compressive strength of concrete	43	Treatments	3, 41
Concrete compressive strength	43	Two-way ANOVA	
Design of experiments	41	- with interaction	24-35
Experimental design	40-56	- without interaction	16-23
Fixed effects model	25	Variance in data	4, 16
F-test	3, 6	Variation	4-6
Fuel injection systems	10	Weathering of paint	29
Hypothesis	3	EXERCISES	
Interaction	24	12, 36, 51
